Thongly Kim	
	

Project Vision & Expectations

What do we want to accomplish in terms of quality of work, marks, skills we want to develop or refine, etc.?

1. Submit all work and materials in on time. Let group know well in advance if you are falling behind.
2. Be prepared for all meetings.
3. Work honestly: don't cheat, plagiarize, or expose the group to disciplinary action.
4. Complete tasks on or before assigned deadlines.
5. Set clear expectations and standards for work products and group meetings.

Procedural Ground Rules

What rules can we agree on to help us meet our project vision and expectations? What do we expect from each other in terms of how and how often we will communicate, how we will conduct meetings, how we will resolve disagreement, etc.?

1. Set goals and deadlines
2. Be attentive and contribute to group discussions.
3. Meet up at least once in a week for group discussion.
4. Respect and value other member's opinions and input, even if it differs from your own.

Behavioural Ground Rules

What do we expect of each other in terms of attendance at meetings, participation, sharing workloads, ensuring all voices are heard, etc.?

1. Keep in touch outside of class.
2. Address issues with group members in a timely and respectful manner.
3. Respect and value other member's opinions and input, even if it differs from your own.

Decision Making Ground Rules

How will we make decisions as a group?

1. voting
2. if members disagree, the group will test both options and select the one with the best performance or seek guidance from the tutor.

Designated Roles

Role	Student Name

Workload Allocations

Every member of the team agrees to participate in analysing the assignment carefully to determine what is required and how the group will achieve those requirements.

Additionally, the team will achieve consensus on a fair and equitable plan to divide all work in advance, and agree to revisit and revise that plan if unexpected changes or circumstances warrant revisions. Free-riding* will not be tolerated.

*Free-riding shall be generally defined as substantially benefiting from the collective actions of the group without substantially contributing to those collective actions.

Consequences for Non-Performance

How will we address performance and behaviour issues involving individual team members, such as failure to attend meetings, failure to participate, rude language or behaviour, etc.?

1. Warning

2. If free-riding, absence, or disrespectful behavior persist, the group will formally report the issue to the tutor.

► See Appendices for Planning Tools and Details ◀

Group Meeting Requirements

Estimate and plan how many more team meetings you expect to need

Consider the following:

- Will you meet to review your deliverables before submission (report, presentation, etc.)?
- Will you have any sub-teams who need to meet separately to work on a particular task?
- Will you have a meeting to assess progress and resolve any problems that may occur?
- Will you plan to meet after the project is finished to debrief and review lessons learned?

Skill Identity

Identifying the skills required to complete a group assignment is a crucial step for team success. You should first identify which team members have some level of proficiency with those skills, and then which team members are interested in developing or refining specific skills.

Skills We Require	Skills I Can Contribute	Skills I Want to Develop/Refine
